

NOTIFICATION FOR STUDENTS

Construction Industry Development Council (CIDC), one of the founding members of Engineering Council of India (ECI) has entered into an MoU with American Concrete Institute (ACI) to promote exchange programs & offer opportunities of Professional development to engineering students.

Under this program, selected students from India will be taken to United States to undertake an Internship of 6-12 months with some leading Infrastructural construction companies. Successful students would be given placement in such companies and it is expected that the student will work in the Company for at least 3 years. Visas shall be arranged for the students accordingly.

As a first step, students are expected to join ACI as members free of cost and register with ECI after payment of appropriate fee. For details please visit www.ecindia.org.

Student Members shall be entitled to avail study materials, participate in online webinars, seminars and other professional events conducted by ACI. For details & other benefits to enrol as student members of ACI, please click the following link <https://www.concrete.org/membership/studentmembership.aspx> .

Students from Bhutan, Bangladesh, Maldives, Nepal & Sri Lanka are also eligible to avail of this opportunity.

This is a life time opportunity for ambitious and hardworking students to boost their professional career.
